BrainCells  
(MV, CP, RM,  
MORE, LESS, RELATIVE  
AND ABSOLUTE PATH  
AND WILDCARD(\*) IN  
LINUX

# WORKING WITH CP, RM AND MV COMMAND, RELATIVE-PATH AND ABSOLUTE-PATH USING WILDCARD(\*)

## TO DO:

**Copy and paste the command below on your terminal to download the exercise.**

- `wget https://group5-braincells.s3.amazonaws.com/document.zip`
- THEN UNZIP IT WITH THE FOLLOWING COMMAND `unzip document.zip`
- Delete the zip want and remain with the unzip document
- `Ls` to see if document is there

# WORKING WITH CP, RM AND MV COMMAND, RELATIVE-PATH AND ABSOLUTE-PATH USING WILDCARD(\*)

## Exercise 1:

Suppose you have a directory called "documents" that contains various files. Your task is to perform the following actions:

1. Delete all files with the ".tmp" extension in the "documents" directory.
2. Copy all files with the ".docx" extension in a directory called "backup".
3. Remove all files in the "backup" directory that start with "old\_" and end with ".docx".

# WORKING WITH CP, RM AND MV COMMAND, RELATIVE-PATH AND ABSOLUTE-PATH USING WILDCARD(\*)

## Exercise 2:

Suppose you have a directory called "images" that contains various files and subdirectories. Your task is to perform the following actions:

1. Delete all files with the ".png" extension in the "images" directory and its subdirectories.
2. Copy all files with the ".jpg" extension to a new directory called "backup\_images".
3. Move all files with the ".gif" extension to a subdirectory called "animated" within the "images" directory.

# WORKING WITH LESS AND MORE COMMAND

## Exercise 3:

inside the document directory there is a file called film.docx, view the content of the file using less and more command.

1. what is the differences between less and more command.
2. Used more command to view the content of the file called film.docx.
3. Used less command to view the content of the file called film.docx.
4. Used less command to search for the word: "Through his training and missions, Naruto encountered various enemies".
